

Gantry robot plant operator - timber construction (m|f|d)

Gossau SG, Switzerland

As a leading company in the timber industry and in timber and silo construction, Blumer Lehmann utilises the diverse potential of wood innovatively and in a sustainable value-added cycle. Our employees are committed to a wide variety of customer projects at our headquarters in Gossau SG, at our sites in Switzerland, Germany and Luxembourg, and all over the world.

We are looking for reinforcements to set up our new timber construction production line at our headquarters in Gossau SG - join us in reaching this important milestone

Tasks

- You will operate and control our state-of-the-art and innovative portal robot (TechnoWood TW Mill-E) for the production of wooden elements
- You ensure that our projects are produced to a high quality standard
- You support the production team as a competent contact person for technical questions
- You will take on a pioneering role in the commissioning of our new production hall

Requirements

You have completed vocational training as a carpenter, joiner, polymechanic or similar and already have practical experience in working with CNC machines (an advantage). You are technically adept and ambitious to continuously optimise our new portal robots. You take responsibility, are proactive and have a high level of quality awareness.

We offer

We offer you an extremely exciting job in a successful and future-orientated company. In a newly created working environment (new production hall, top machines, newly formed team), you can play a full part and make a significant contribution to a successful start. We cultivate an appreciative approach and the necessary sense of humour at work is a must.

We look forward to hearing from you. Send us an uncomplicated "short application". Of course, you can also submit your application documents via our online application form.

We look forward to receiving your application documents via our homepage.
