

Automation technician (m|w|d)

Gossau SG, Switzerland

As part of Blumer Lehmann, we are a specialized silo and plant manufacturer for winter road maintenance. We are increasingly focusing on complete plant construction and modern conveyor technology. We realize individual and economical solutions throughout Europe, which we develop together with our customers, produce in our factory and assemble on site.

Tasks

Planning, installation and commissioning of brine and conveyor systems

Programming of PLC controls

Maintenance and repair of the systems

Carrying out fault analyses and troubleshooting

Optimization of existing automation processes

documentation

Requirements

You have basic training as an automation technician or equivalent. Ideally, you are no stranger to PLC programming. You value being able to work independently, flexibly and in a structured manner. Fluent German and good PC skills are a matter of course for you.

We offer

A job where you can use all your technical and people skills. An innovative environment, a good working atmosphere and a supportive team are looking forward to welcoming a doer with a healthy work ethic.

We look forward to receiving your application documents via our homepage.
