

Electrician | Mechatronics engineer | Service technician (m|f|d)

Klosterlechfeld, Germany

As a leading company in the wood industry as well as in wood and silo construction, Blumer Lehmann uses the diverse potential of wood innovatively and in a sustainable value creation cycle. Our employees are committed to the headquarters in Gossau SG, at the locations in Switzerland, Germany and Luxembourg and in use around the world for a wide variety of customer projects.

Tasks

- In a small, flexible team, you are responsible for the service of our systems.
- You work independently in the field at various locations in Germany. The company location would be at our headquarters in Klosterlechfeld or at the branch in the Heilbronn area.
- You look after our winter service systems on behalf of our customers and resolve minor faults in the system technology.
- You are an all-rounder and have experience in plant construction, know how to deal with connecting pipes and are also familiar with electrical work.
- Customer contact at the depots brings out your communicative side

Requirements

You have basic training in electrical engineering or mechatronics and are interested in the topics of mechanics, electronics and software. Perhaps you are also a heating engineer or a craftsmanship all -rounder who likes to travel throughout Germany. Ideally, you have already gained experience in control cabinet construction and are enthusiastic about this work. With the search for improvements, you will actively get involved in our team. You have good communicative skills and have a safe appearance in customer contact. Your greatest motivation is a customer who is enthusiastic about your work.

We offer

We offer you a task where you can take responsibility holistically in an innovative company with flat hierarchies. A supporting team that attaches importance to respect and reliability as well as further training opportunities are also part of the overall package. Have we sparked your interest? Then we look forward to your application documents via our website.
