

Internship Trainee timber construction (m/f/d)

Gossau SG, Switzerland

As a leading company in the timber industry and in timber and silo construction, Blumer Lehmann uses the diverse potential of wood innovatively and in the sustainable value-added cycle. Our employees are committed to a wide range of customer projects at our headquarters in Gossau SG, at our locations in Switzerland, Germany and Luxembourg, as well as on assignments around the world.

Your tasks

- You have the opportunity to work on exciting timber construction projects.
- This includes execution and works planning.
- You will assist with AVOR work and material procurement.
- You will also be responsible for preparing the machine data for the joinery and cutting.
- You will also gain an insight into the monitoring and quality assurance of production and assembly.

Your skills and experience

You have a degree in timber construction technology or timber construction engineering. You have a quick perception, act in a structured manner, are communicative and courageous. Qualities such as willingness to learn, flexibility and openness to new things are further characteristics that distinguish you.

We offer

We offer you interesting tasks in a successful and innovative company where active thinking is valued. In addition to an open working atmosphere in an open-minded team, an appreciative working environment is also part of your internship or thesis. The duration of the internship is between 6 - 12 months.
