

Carpenter | Carpenter for assembly and production (m/f/d)

Grossenlöder, Germany

As a leading company in the wood industry as well as in wood and silo construction, Blumer Lehmann uses the diverse potential of wood innovatively and in a sustainable value creation cycle. Our employees are committed to a wide variety of customer projects at the headquarters in Gossau SG, at locations in Switzerland, Germany and Luxembourg and around the world.

Tasks

- You are part of a young, motivated team that produces and builds modular, residential, industrial and special buildings with fun and team spirit.
- You will work together as a team on our unusual carpentry work; from production to shell assembly, expansion to completion.
- You work in production and produce the elements as a team, including the expanded room modules You can create wall, floor and ceiling elements regardless of the weather
- Together with the assembly team, you will actively and independently help to assemble the room modules you have produced.
- You will carry out the varied production and assembly work flexibly, energetically and independently.

Requirements

You have completed your training as a carpenter or carpenter and may have already gained professional experience in wooden element construction. You will score points with us with your motivated and honest attitude. You are used to working precisely and cleanly. You think along, get involved and have fun and enjoy innovative and challenging projects.

We offer

We work with state-of-the-art tools, machines and operating resources and are always up to date with the latest technology. In our assembly and production teams you will find a collegial working atmosphere, appreciative exchange and the necessary sense of humor should definitely not be missing. With us you can get involved and continually develop your specialist knowledge. We look forward to hearing from you. Get in touch easily with a "short application". Of course, you can also submit your application documents using our online application form.

We look forward to receiving your application documents via our homepage.
