

Carpenter | Steelworker (m/f/d)

As a leading company in silo and system construction, we offer complete solutions for winter road maintenance. From small-volume silos to fully automated winter service bases, we implement individual complete solutions throughout Europe and advise, design, plan and install systems of all sizes. And there's more: we refurbish and modernize existing systems and also provide service and maintenance. At our branch in Klosterlechfeld, we produce conveyor technology, weighing systems, tank systems and control systems. Our employees are on the road both locally and throughout Germany and neighboring countries.

Tasks

- In a small and flexible team, you are responsible for the service of our systems.
- You work independently in the field at various locations in Germany. Our company location would be in the Heilbronn area.
- You look after our winter service systems on behalf of our customers and resolve minor faults in the system technology.
- You are an all-rounder and know your way around wood and steel construction.
- Customer contact at the depots brings out your communicative side.

Requirements

You have basic training in the construction industry. You are familiar with working in wood and steel construction. Maybe you are also a craftsman all-rounder who likes to travel throughout Germany. By looking for improvements, you actively contribute to our team. You have good communication skills and a confident demeanor in customer contact. Your greatest motivation is a customer who is enthusiastic about your work.

We offer

We offer you a varied and interesting job in a successful and future-oriented company. In a safe working environment you can contribute and develop yourself further. We maintain an appreciative relationship and the necessary sense of humor at work must not be missing. A supportive and collegial team awaits you. You can arrange your working hours in consultation with the team so that your leisure activities are not neglected. Working independently is desired and, after an induction phase, working from home is also possible. Have we sparked your interest? Then we look forward to receiving your application documents via our website.
